

Illinois Environmental Protection Agency

Public Notice

Proposed Renewal of the Clean Air Act Permit Program Permit for
Northern Natural Gas Company in East Dubuque

Northern Natural Gas Company has requested that the Illinois Environmental Protection Agency (Illinois EPA) renew the Clean Air Act Permit Program (CAAPP) permit regulating air emissions from the natural gas compression and transmission station located at 5421 Menominee Road in East Dubuque.

The Illinois EPA is accepting comments on the draft permit. Comments must be postmarked by midnight February 5, 2006. If sufficient interest is expressed in the draft permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.

Persons wanting more information may obtain copies of the draft permit and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, Title V, Renewal). These documents and the application are available at the Illinois EPA's offices at 1630 Fifth Avenue in Moline, 309/797-3341 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act. The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. CAAPP permits may contain new and revised conditions established under permit programs for new and modified emission units, pursuant to Title I of the federal Clean Air Act, thereby making them combined Title V and Title I permits.
